

## Google Certified Trainer Pathway Level 1+Level 2+Trainer Program= Google Certified Trainer

### LEARNING EXPERIENCES:

- **Needs Assessment:** each participant will take the friEdTechnology Google Needs Assessment to inform our teaching
- **FOLĒ Intro Webinar:** we'll start out with an interactive webinar to introduce the program and learn something new together. Participants will receive information about how to get started, schedule, time commitments, etc.
- **Level 1 & Level 2:** each learner who does not have a valid Google Level 1 and or Level 2 certificate (required to apply for trainer status) will take our asynchronous course with all of the information needed to achieve these certifications and testing vouchers.
- **Google Certified Trainer:** we'll work with your prospective trainers synchronously during several 3 hour events to understand the program and gain the skills needed to become a Certified Trainer including how to create and deploy a needs assessment and a corresponding professional development session. Testing voucher included for the Trainer Skills Assessment.
- **Portfolio Feedback:** we will review your Google Certified Trainer case study and video and provide feedback to give you the very best chance of acceptance into this prestigious program. Once you receive your feedback, you'll be ready to submit your application and become a Google Certified Trainer.

Check for valid certificates using this site and any possible testing email address that might have been used by the tester(s): <https://www.credential.net/retrieve-credentials>

## QUESTIONS? ANSWERS!

**Q: I already have Google Level 1 /Level 2 Certification; can I still apply or will this program help me?**

A: YES! This program is created to take you from where you are in your certification journey to be a Google Certified Trainer, which requires Level 1 and Level 2 Certification. If you already have either or both L1 or L2, you are ahead of the game, but you can definitely still use our program to complete the process of becoming a Google Certified Trainer.

Do you have other questions? Please let us know . . .
